BA

Bridge Animations

INTRODUCTION

Bridge Animations offers a portfolio of services in the IT industry, ranging from 3D Animation, Visual FX to Editing & Post-Production. The CEO, Asif Iqbal, has over three decades worth of experience leading awarding-winning studios and his portfolio comprises of Hollywood Feature films, International Television Commercials (TVCs) and Animated Television Shows before starting his own production house in 2019 to bring his vision to life. Bridge Animations latest work includes a TVC for a leading confectionary and food manufacturing company, Hilal Foods, aired on all major television outlets in Pakistan.

Bridge Animations aims to offer its services in the Danish market, to agencies and firms looking to outsource Animation, Post and VFX. Bridge Animations are open to working on a myriad of categories including but not limited to Feature films, Television Commercials (TVCs) and Animated shows. Bridge has an idea of the European market as our CEO, Mr. Asif Iqbal, has previously worked in the German market and been a part of the Berlin Film Festival.

PRODUCT & SERVICES

- 3D & 2D Animation - Based on the client's visual preferences including other factors such as timeline, target audience and budget, Bridge Animations offer both 3D and 2D animation services.

- VFX - team is skilled in the process of creating or manipulating imagery beyond the context of a live action shot and integrating live action footage and CG elements to create realistic imagery in filmmaking.

- Post-A highly collaborative process, it is the stage after production when the editing of the audio and visual materials beings with tasks ranging from the cutting and assembling of footage to adding music, dubbing, etc.

INERTIASOFT

INTRODUCTION

Formulated in February 2019 , InertiaSoft Pvt Ltd is fast gaining popularity as one of the top software services providing company in the business. In a very short time we have gained quite a large number of loyal and satisfied clientele owing to our hard work, commitment and resilience in a time of saturation and immense competition. The company was formed with the singular goal of providing customized, focused software services to each client that not only fulfils the requirements of the client, but is personalized to enhance the image, goals and outlook of the client as a whole. Our code of ethics makes us uphold a strong air of professionalism and client-friendly policies. Each client is a unique identity and must be treated as such . That is the chief reason we have been able to amass a steady client base in very limited lime. We aren't the first Software solutions company, and we definitely won't be the last but given our values, work ethic and skill , we plant to stay here for a long time, creating aesthetic and technologically proficient software for our clients.

InertiaSoft mission is to cement InertiaSoft as the leading Software Service provider through hard work, commitment and best customer service. Intertiasoft understands this is possible only if we succeed in enhancing the business capability of our clients by automating their processes with state of the art Software Design and Development services and that is what we strive to provide. With a team fully equipped to handle any software challenge and a leader committed to dealing with clients as business partners, we believe we arc on the right track already.

ITACK SOLUTIONS

INTRODUCTION

Icare is an EHR software that has transformed healthcare management to meet the needs of the modern healthcare system. Through its up-to-date futuristic algorithm, icare manages transfers and connects your clinical, financial and operational data. Information processing is highly personalized and integrated to fit the hospital's needs which helps ensure our ultimate goal; patient satisfaction and quality care.

The driving force behind a successful healthcare system is data, but in the modern era, data collection brings up a daunting image of cluttered desks, patient queues and laborious form filling which increases risks of inaccuracy, data and time loss.

PRODUCT & SERVICES

- A Digital & paperless system for better coordination
- Enables real-time medication stock availability check across hospital supply chain
- Built-in USA Standards ICD-10, CPT and HL7 engine for seamless integration which helps track departments and optimize the workflow between them.
- Embedded Artificial Intelligence to prioritize patient care which guarantees up to a 30% increase in patient traffic and cash flow
- Integrated ERP for visibility and transparency
- Decreases encounter time and minimize cancellations which help ensure the quality and continuity of care.
- Healthcare analytics, PHM, Patient Dashboard Financial KPls
- Unified Patient View for physician productivity and an improved patient experience
- User-friendly, flexible and pre-built content for specialties lets you focus on care
- RCM - clinical, financial and operation data working together

THE CYBER BRIDGE

INTRODUCTION

The Cyber Bridge started its operation with a single computer in 1997 by two brothers Amin Lalani and Salim Lalani. The goal was to digitize local businesses enabling them to adopt best practices. In the early years of operation, TCB managed to deliver a successful solution to Salima Marble for export marketing, Waljis Travel for Online Tour Booking, Liberty Books for Ecommerce and Business Recorder for paid readership subscription.

E-Tailing is a subsidiary of The Cyber Bridge, a pioneer in introducing E Commerce in Pakistan. Established in 1997, The Cyber Bridge launched Liberty Books, BRecorder and Waljis Travel in early 2000 before moving to serve globally. In 2004, TCB also developed third party E-commercc module for SAGE Accpac using VPASP Shopping Cart as the base structure, in collaboration with Aim insight, USA. E-Tailing was formed after the CEO; Amin Lalani published a research paper on E-Tailing in Pakistan. The company provides innovative solution to SMEs and Enterprise users. Having onboard experts in Technology Infrastructure, Value chain Management,Research,Analytics,Communication, Merchandising, Developer, Animator and more. E-Tailing is position as one of the only Digital Commerce Agency in Pakistan and few in the world to provide holistic solution under one roof.
